

9th Press Release

At the heart of the SUSEDI project lies the **SUSEDI Route Map** — a powerful strategic framework guiding educational institutions through a step-by-step journey toward sustainable transformation. Designed around the Whole Institution Approach (WIA), the Route Map addresses change across **six interconnected pillars: Pedagogical, Institutional, Community, Operational, Governance, and Research.**

By offering clearly defined progress levels and tailored actions for each pillar, the Route Map empowers institutional leaders and educators to assess their current state, identify growth opportunities, and implement context-sensitive strategies. More than a static roadmap, it is a dynamic, reflective tool that supports continuous improvement and inspires cultural change from within.

Transformation Agents use the Route Map as both a diagnostic and developmental guide, making sustainability not just a goal, but a lived institutional ethos.
